Federal Communications Commission
Office of Secretary

Dear Mr. Kennard:

I am writing to express my support of expanded community access to the airwaves, especially in connection with small, low-wattage radio broadcasts. I do not feel that the large, corporate-owned radio stations should be allowed to exert the degree of domination that they currently possess in our community. The existing public radio stations do much to fill the gap left by commercial radio; however, anything that the FCC can do to foster more open broadcasting and to make it more affordable to would-be broadcasters would be welcomed by a large segment of our community.

Thank you for your consideration.

Sincerely,

Craig M. Berube
